PROFESSIONAL SUMMARY

Full Stack Developer (MERN) experienced in building scalable web applications using React, Node.js, Express, and MongoDB. Recently graduated from Ironhack's Web Development Bootcamp, combining strong JavaScript expertise with over a decade of professional experience in high-performance corporate environments. Focused on developing secure, well-structured solutions optimized for production environments.

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), HTML5, CSS3.
- Frontend: React, Hooks, Context API, Component-Based Architecture, Axios.
- Backend: Node.js, Express.js, RESTful APIs.
- Database: MongoDB, Mongoose (Data Modeling).
- Tools: Git/GitHub, npm, Auth (JWT/Bcrypt), Vercel, Netlify.

KEY PROJECTS

Right On Time (ROT) | Full Stack Developer

- Designed and implemented a production-ready MERN application supporting full CRUD operations and secure JWT-based authentication.
- Built RESTful APIs with Node.js and Express to manage protected user data and application logic.
- Modeled scalable MongoDB schemas using Mongoose, ensuring efficient data structure and validation.
- Deployed frontend and backend independently in production environments (Vercel and Netlify), ensuring environment separation and application stability.

Frontend Repo: https://github.com/pablovqueiroz/rot-frontend
Backend Repo: https://github.com/pablovqueiroz/rot-backend

Harry Potter App | Full Stack Developer (Collaborative)

- Built dynamic React components with complex routing using React Router.
- Integrated external APIs for real-time data consumption and state management.
- Collaborated in a development environment using Git version control and branch-based workflows.

GitHub Repo: https://github.com/andresgonzalezperez/harry-potter-react-app

Recipe Book App (I'm Hungry) | Frontend Developer (Collaborative)

- Developed a responsive React-based UI integrating third-party APIs.
- Implemented reusable component architecture to improve scalability and maintainability.
- Optimized user experience across multiple devices using responsive design principles.

PROFESSIONAL EXPERIENCE

Commercial & Customer Support Assistant | 2019 – 2025 | MEO (Altice Portugal)

- Managed customer acquisition and retention processes in a high-volume telecommunications environment, contributing to client satisfaction and retention.
- Provided technical and commercial after-sales support, ensuring efficient issue resolution and operational target maintenance.
- Acted as a focal point for incident resolution, maintaining performance indicators and service quality standards.

Project Draftsman | Rio de Janeiro, Brazil | 2013 – 2019 | Alfatec Cozinhas

- Developed technical designs for stainless steel equipment for professional kitchens, ensuring alignment between design specifications and manufacturing processes.
- Collaborated with production teams to guarantee precision, functionality, and compliance with technical standards.
- Improved technical documentation organization, optimizing workflow efficiency.

Administrative Assistant | Rio de Janeiro, Brazil | 2011 – 2013 | Vega Comunic. LTDA

- Managed client accounts and financial operations (accounts payable and receivable).
- Maintained and updated internal systems, ensuring data accuracy and administrative efficiency.
- Coordinated logistics for orders, pickups, and deliveries, improving process organization and deadline compliance.

EDUCATION

- Postgraduate Program in Software Engineering | Anhanguera (Expected 2026)
- Web Development Bootcamp | Ironhack (Completed Jan 2026)
- Marketing Technology | Universidade Estácio de Sá (Brazil)

LANGUAGES & AVAILABILITY

- Languages: Portuguese (Native) | English (Intermediate B1).
- Availability: Immediate.
- Work Preference: Available for On-site/Hybrid roles in Porto area; Remote for all other locations (Portugal/EU).
